The Stone Age did not  
end for lack of stone.

Breaking an old business model is always going to require leaders to follow their instinct.

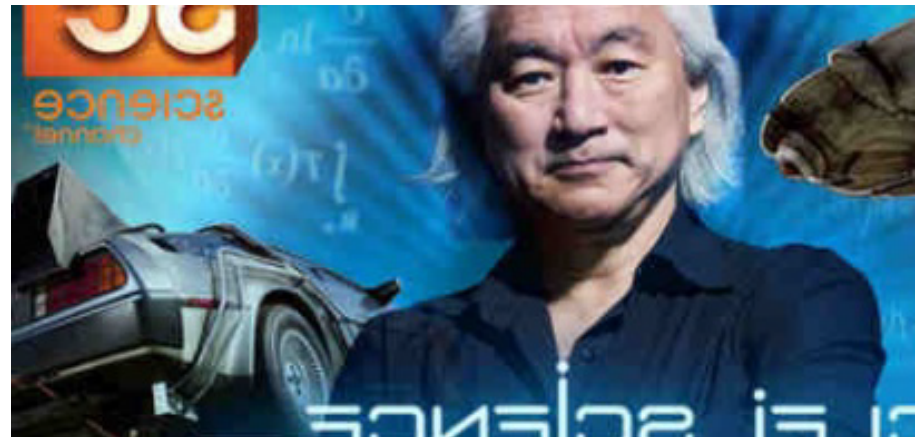

If you are interested in something, you will focus on it, and if you focus attention on anything, it is likely that you will become interested in it.

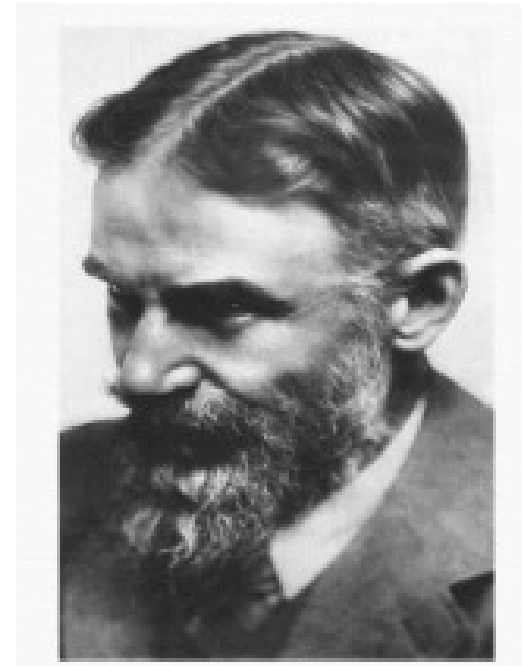

Reality has always proved to be much more sophisticated and subtle than any preconceived philosophy.

The reasonable man  
adapts himself to the  
world;  
the unreasonable one  
persists in trying to adapt  
the world to himself.  
Therefore,  
all progress depends on  
the unreasonable man.
